Hokksund department is now hiring a mechanical designer, and we are looking for somebody with interest and competence on 3D CAD (Autodesk Inventor), competence on mechanical design and interest in electromagnetism.

Responsibilities:

Create 3D drawings and produce technical documentation for quotations, orders and create library for existing components and designs. Initially, the main task will be to create the library in cooperation with other CAD engineers in the group. We also anticipate you will be involved in interactions and communication with customers and assist with technical support.

Position qualifications:

- Mechanics and CAD (Autodesk Inventor).
- Fluent in Norwegian and English; written and oral.
- Good knowledge in use of Microsoft Office applications.
- Mastering Autodesk Inventor
- Basic understanding of electro is an advantage
- Minimum completed vocational school

Our Expectations:

- Interest and passion for the discipline
- Passionate for providing quality in support to our external customers and internal customers (Noratel sales offices).
- Innovative and ability to think cost-optimisation
- You fit into our team, are self-motivated and initiative.
- You challenge us: there are always room for improvements!
- You understand that both external and internal customers need qualitative response – on time, and often fast.
- Structured and systematic.
- Service-minded and eager to learn.
- Your application for the position is done in English – both cover letter and CV

We Offer:

- Interesting and challenging tasks
- International cooperation
- Experienced and knowledgeable co-workers who are eager to welcome you on board
- Flat organisation structure

- Possibility to impact on our financial performance and influence on tactical decisions
- Salary: to be negotiated
- Good pension scheme

Experience and background:

It is no disadvantage if you are young. Gender does not matter, but we would welcome more females in a culture dominated by males.

Working at Noratel Norway:

Noratel AS was founded in 1925. We are today a leader in the Norwegian market, with manufacturing facilities and offices located in Hokksund, Hamar and Årnes and employ 38 people. Noratel serve group companies and customers in industries such as installation & wholesale, ship & offshore, renewable energy, medical technology, industrial automation, motor drives, rail and e-Mobility. Many of us have been in the company for more than 15 years. We are dedicated to creating an inclusive working environment that encompasses diversity and equal opportunities. In addition to competitive terms, you will have the chance to develop your personal profile and career in an international environment. Our success will encompass the well-being of our existing and future employees and minimization of our carbon footprint.
