Mechanical designer

Location: Hokksund, Norway

Noratel is a global manufacturer of power magnetics. Our vision is to be the leading strategic partner of high-class solutions for electrical transformation worldwide by delivering outstanding quality, service, competitiveness and innovation that will help our customers succeeding in their markets.

Our Hokksund department is now hiring a **mechanical designer**, and we are looking for somebody with interest and competence on 3D CAD (Autodesk Inventor), competence on mechanical design and interest in electromagnetism.

Key Responsibilities:

Create 3D drawings and produce technical documentation for quotations, orders and create library for existing components and designs. Initially, the main task will be to create the library in cooperation with other CAD engineers in the group. We also anticipate you will be involved in interactions and communication with customers and assist with technical support.

Qualifications:

- Mechanics and CAD (Autodesk Inventor).
- Fluent in Norwegian and English; written and oral.
- Good knowledge in use of Microsoft Office applications.
- Master "Vault" (Software).
- Mastering Autodesk Inventor.
- Basic understanding of electro is an advantage.
- Minimum completed vocational school.

discoverIE

Characteristics:

- Interest and passion for the discipline.
- Passionate for providing quality in support to our external customers and internal customers (Noratel sales offices).
- Innovative and ability to think cost-optimisation.
- You fit into our team, are self-motivated and initiative.
- You challenge us: there are always room for improvements!
- You understand that both external and internal customers need qualitative response – on time, and often fast.
- Structured and systematic.
- Service-minded and eager to learn.

We Offer:

- Interesting and challenging tasks.
- International cooperation.
- Experienced and knowledgeable co-workers who are eager to welcome you on board.
- Flat organisation structure.
- Possibility to impact on our financial performance and influence on tactical decisions.
- Salary: to be negotiated.
- Good pension scheme.

Working at Noratel Norway:

Noratel AS was founded in 1925. We are today a leader in the Norwegian market, with manufacturing facilities and offices located in Hokksund, Hamar and Årnes and employ 38 people. Noratel serve group companies and customers in industries such as installation & wholesale, ship & offshore, renewable energy, medical technology, industrial automation, motor drives, rail and e-Mobility. Many of us have been in the company for more than 15 years. We are dedicated to creating an inclusive working environment that encompasses diversity and equal opportunities. In addition to competitive terms, you will have the chance to develop your personal profile and career in an international environment. Our success will encompass the well-being of our existing and future employees and minimization of our carbon footprint.

About Noratel Group:

Noratel is servicing industries worldwide, evolving to meet the ever-changing demands of our customers. Today we are a leading global provider, proud to offer the most comprehensive range of transformers, reactors and power supplies. Besides a comprehensive standard range product portfolio, the majority of Noratel production is dedicated to custom design and manufacturing to meet the requirements of OEM customers. Noratel employs 2000+ people across 13 countries in Europe, Asia and North America. Corporate headquarters is based in Hokksund, Norway. Learn more at www.noratel.com.

Position type:

- Permanent, full-time.

Start date:

- Soonest possible.

Location:

- Noratel AS, Elektroveien 7, 3300 Hokksund.
