

DESIGN & SALES ENGINEER

Noratel is a global manufacturer of power magnetics. Our vision is to become the leading strategic partner of high-class solutions for electrical transformation worldwide by delivering outstanding quality, service, competitiveness, and innovation that will help our customers succeeding in their markets.

We are looking for an experienced Design & Sales Engineer to join our dynamic and ambitious Noratel Sales & Design team in our Trivandrum office.

Overall Responsibilities:

As a Design and Sales Engineer, you will be part of an interdisciplinary team working on all aspects of transformer and inductor manufacturing

Prepare specifications and related documents in accordance with requirements, established formats, and general instructions.

Provide the sales, operations, and marketing groups with technical assistance

Responsibilities:

- Design based on customer requirements
- Preparing BOM, participation in Design Reviews and leading DFMEA.
- Participate in Quality improvement projects and verification of product design.
- Make commercial evaluations of designs and adjustments of the product at the customer
- Plan, conduct, or coordinate relatively straight-forward engineering analysis & tests, and prepare related reports & summaries (for review).
- Participation in design reviews including leading the DFMEA
- Identify and select materials/ BOM needed for production
- List costs involved in production
- Perform and check engineering calculations to verify product design
- Correctly interpret the product scope to insure proper application of the transformer products

Qualifications:

- University degree in Electrical Engineering
- Experience: Minimum 1 year experience

Characteristics:

- Initiative and diligence in the execution of tasks
- Quick comprehension
- Self-driven and strong interpersonal skills with ability to establish and develop working relationships between business functions.
- Good understanding of Magnetics
- Excellent written, verbal communication and interpersonal skills. Ability to efficiently communicate in English and experience with MS Office and ERP is essential.

Noratel can offer you:

- Extensive familiarization with the entire range of responsibilities
- Competitive salary
- Cooperation in a young and dynamic team
- Work-life balance

Working at Noratel India:

Noratel India Power Components Pvt Ltd is a company with 639 employees including outsourcing located in both Trivandrum, Kerala plant and Bangalore, Karnataka plant. Noratel India is proud to design and manufacture the most comprehensive range of transformers, reactors and power supplies. We also serve group companies and customers in industries such as renewable energy, medical technology, industrial automation, motor drives, rail and eMobility. Noratel India is dedicated to creating an inclusive working environment that encompasses diversity and equal opportunities. In addition to competitive terms, you will have the chance to develop your personal profile and career in an international environment. Our success will encompass the well-being of our existing and future employees and minimization of our carbon footprint.

About Noratel Group:

Noratel was established in 1925 and is servicing industry worldwide, evolving to meet the ever-changing demands of our customers. Today we are a leading global provider, proud to offer the most comprehensive range of transformers, reactors and power supplies. Besides a comprehensive standard range product portfolio, the majority of Noratel production is dedicated to custom design and manufacturing to meet the requirements of OEM customers. Noratel employs 2000+ people across 13 countries in Europe, Asia and North America. Corporate headquarters is based in Hokksund, Norway.
