Supply Chain Manager

Location: Bangalore, India

Noratel is a global manufacturer of power magnetics. Our vision is to be the leading strategic partner of high-class solutions for electrical transformation worldwide by delivering outstanding quality, service, competitiveness and innovation that will help our customers succeed in their markets.

Noratel India has reputed transformer design and manufacturing facilities located in both Trivandrum and Bangalore. To meet our vision and support our further growth we are searching for a highly qualified and experienced Supply Chain Manager.

The candidate we are looking for shall develop and deliver on the company's goals and supply chain strategy - strengthen the company's competitive position by improving the supplier portfolio, improve efficiency and reduce costs while securing high-quality material for the company.

The role is an important driving force, collaborating across the Noratel India organization as well together with Noratel APAC and Group delivering on company goals.

Our ideal candidate for Supply Chain Manager should be well-versed in key areas:

- » University master's degree in Supply chain management, Purchase and logistics or similar field.
- » Minimum 5 years' Senior management experience in electrical industry.
- » Proven track record in procuring materials for electrical industry from global suppliers.
- » Excellent knowledge of supply chain processes and warehouse management.
- » Good knowledge of logistics both locally and internationally.
- » Track record of building a high-performance team and organizational structure.
- » Work experience of relevant software.
- » Strong negotiation skills.
- » Excellent interpersonal and customer service skills
- » Excellent Organizational skills and attention to detail.
- » Excellent time management skills with a proven ability to meet guidelines.
- » Strong analytical and problem-solving skills.
- » Excellent team player.

- » Ability to flourish with minimal guidance, be proactive, and handle uncertainty.
- » Ability to communicate in oral & written English fluently.

Responsibilities:

- » Ensure compliance in all business areas and processes; Conduct her/himself with unquestionable integrity and actively promote the highest ethical behavior by all employees and business partners.
- » Ensure timely and cost-effective supply of raw materials and services to meet customer demand.
- » Develop and implement the company's supply chain strategy that is aligned with the Noratel Group & local strategy, policy, and guidelines.
- » Provide best-in-class services to external and internal customers.
- » Strengthen, develop, motivate, and retain a high caliber team.
- » Lead supplier development, evaluation, and relationship management.
- » Communicate and negotiate with suppliers and vendors to land more profitable and sustainable deals.
- » Analyze data from shipping and delivery processes to overcome bottlenecks and other issues.
- » Set, evaluate, and report high performance driven KPIs.
- » By being a strong team leader/member/ go to person, listen to and guide members of your team and train them to further develop and meet the growth strategy.
- » Positively influence other stakeholders to create coordinated plans for business growth.
- » Develop and implement safety guidelines & Carbon footprint reduction activities in all aspects of the supply chain.
- » Work in collaboration with Local, APAC and Group teams.
- » Utilize tools to simplify and automate processes and improve overall efficiency.

ADDITIONAL INFORMATION

- » Location is Bangalore with responsibilities of Trivandrum & Bangalore.
- » Traveling will be expected to conduct internal & supply chain reviews where and when needed.
- » The position will be reporting Noratel India Managing Director and Noratel Group Purchasing Director
- » The teams in Trivandrum & Bangalore will be reporting to this position.
- » In the perspective of succession planning, we want the candidate to have the calibre to take on the role of Supply chain Lead for APAC region in few years' time: this means the ideal candidate has already got significant experience in supply chain operations and in managing teams spread across multiple sites.
